Nucleus breaks through £8 billion barrier in eighth year

Nucleus today announces that assets under administration on its platform broke through the £8 billion barrier on 28 December 2014, following an intense period of record inflows. The adviser built wrap platform passed the milestone eight years to the month since it first went live just before Christmas 2006.

The award-winning platform, now boasts a community of over 450 adviser firms across the UK, with over 6,000 users accessing the platform meeting the financial planning needs of over 65,000 clients.

A leading and innovative player in the wrap market, Nucleus is currently the second fastest growing platform in the UK* and its achievement in breaking through the £8 billion AUA milestone further strengthens Nucleus' position as the fourth largest adviser wrap platform in the country*.

Commenting on this achievement for Nucleus, David Ferguson, founder and CEO says:

"2014 was challenging for us but having attracted £2bn of inflows, hit £8bn in AUA, completed a major technology upgrade, strengthened the senior management team and achieved record financial results it was also a year of notable progress which helps fuel our excitement for the future."

About Nucleus

Nucleus is a wrap platform founded in 2006 by advisers committed to altering the balance of power in the industry by putting the client centre stage.

Since then Nucleus has established itself as a major force for change. It is now one of the UK's fastest growing adviser platforms and the meeting point for more than 450 adviser firms seeking to create better customer outcomes.

As at 28 December 2014, assets under administration on the platform were £8bn.
